UNIVERSITY COLLEGE

BEYOND EDUCATION

A night-time photograph of the Petronas Twin Towers in Kuala Lumpur, Malaysia. The towers are illuminated with white lights, and their reflection is visible in a large, shallow pool of water in the foreground. The sky is a deep blue with some clouds. The text 'IMMERSE YOURSELF IN MALAYSIA' is overlaid on the image in a large, white, bold font with a yellow outline. The word 'YOURSELF' has a Malaysian flag as a replacement for the letter 'O'.

**IMMERSE YOURSELF
IN MALAYSIA**

TAR UC | 19 AUGUST – 2 SEPTEMBER

SUMMER CAMP

2020

**FEES FOR
SUMMER CAMP**

Cultural Programme –
USD650 / Student

English Programme –

Application Deadline
30 June 2020 (Tuesday)

Linguaskill – Cambridge English Programme

- Prepares candidates for Certification from Linguaskill-Cambridge
- Globally recognised, as the assessments are developed by Cambridge Assessment, UK
- Tests all 4 language skills: speaking, writing, reading and listening
- Aligned to the Common European of Reference (CEFR), the international standard for describing language ability
- The Linguaskill assessment reports the Cambridge English Scale to provide a detailed report of performance outcomes
- Instant results available after completion of online tests, except for speaking which is available after 48 hours
- The English course can be customised to suit the needs of candidates as the tests are modular. For example, if the candidates need improvement in Speaking, the course can be customised to prepare candidates to sit for the Speaking test or for the other modules depending on their requirements/ needs
- Candidates can choose to sit for a specific module (Reading and Listening are combined), Writing and Speaking or can take all the modules.
- The results of the tests **do not have** an expiry date and the tests can be retaken to track improvement.
- The English course touches on English language usage in daily life including studying and working; making future plans, travel and technology.
- Learning methods will be interactive using computer labs and face to face interaction.
